

Dando 2000 Rig

Restricted Access Cable Percussion Rig

Operating Height	m	5.2-6.65
Operating Width	m	2.072
Transport Length	m	7.5
Transport Height	m	1.38
Transport Width	m	1.81
Weight	ton	1.55
Borehole Depth	m	40
Borehole Diameter	mm	150-250

The Dando 2000 is ideally suited for Site Investigation drilling up to 40m depth using 6" to 10" diameter casing. It is capable of obtaining good quality samples, accurate strata depths and carry out insitu testing (SPT 'N' Values).

Also suited for the precise installation of ground water/ground gas monitoring wells and geotechnical instrumentation.

Towed to site by Landrover and operated with a two man crew. Typical production rates are 8 to 15m per day dependant upon ground conditions.
