

## Vetrak Rig

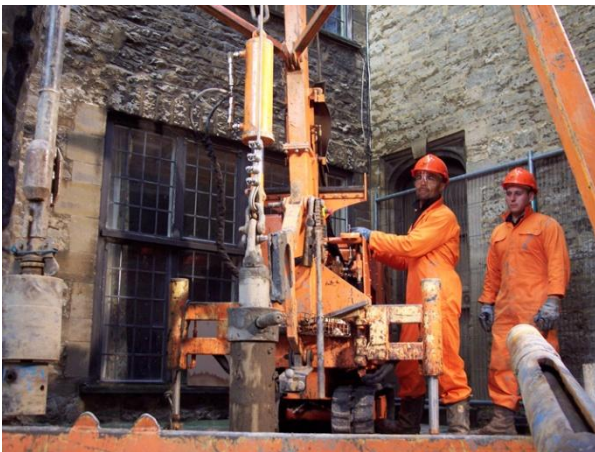

Restricted Access Cable Percussion Rig

Operating Height	m	4 & 6
Length	mm	2800
Height	mm	1900
Weight	ton	2.5
Tracking Width	mm	780

*The Vetrak's outstanding features include:*

- *Reduced noise levels due to engine shroud.*
- *Quick to track between boreholes without dismantling.*
- *Remote Controlled.*
- *Hydraulic breaker & concrete corer can operate from hydraulic power pack.*

*Van Elle Geotechnical Services present the Vetrak Cable Percussion Rig which offers the site access capability of a Window Sampling Rig, but with drilling capability of a Cable Percussion Rig.*

*The Vetrak is ideally suited for working on restricted access sites such as waterways, railways, factories, at the rear of domestic properties or under service station canopies. Transported in a 10 tonne lorry, the Vetrak Rig arrives on site with 20m of casing and a full set of tooling.*
