

## Junttan PM 20

### Pile Driving Rig

Maximum Pile Length	m	20
Operating Height	mm	25,250
Operating Width	mm	4,150
Operating Weight	ton	45
Transport Width	mm	3,150
Transport Length	m	21.25
Bearing Pressure	MPa	-

The Junttan PM 20 is a compact piling rig for pile driving timber, steel and concrete piles. It is an excellent combination of lightweight construction and has the capacity for heavy duty pile driving. The recommended hammer weight is from 4,000 to 5,000 kg and the maximum pile length is 20 meters (65 5/8 ft). The rig has proven productivity due to excellent mobility. The telescopic leader ensures easy and fast handling of piles.

This Junttan piling rig has the same proven features as the bigger Junttan machines. Its rugged design makes it a safe and reliable rig even in the most demanding working conditions. The self-erecting leader and many advanced technical features ensure that the rig is ready to work in just a few minutes. The expandable tracks and low centre of gravity make the rig exceptionally stable in different working situations. The horizontal movement of the leader ensures fast spotting of the pile. Because of the lightweight construction and size, the rig can be easily transported to new working sites.
