

CM48

Hydraulic Self Erecting CFA Piling Rig

Max Pile Length	m	19 + 6
Max Pile Diameter	mm	900
Operating Weight	t	38
Operating Length	mm	4700
Operating Width	mm	4200
Operating Height	mm	2230
Transport Length	mm	1550
Transport Width	mm	2800
Transport Height	mm	3100
Bearing Pressure	MPa	0.05

The CM48 CFA rig was developed following the success of the CM45 and CM46. Assembled on a Soilmec base, the CM48 has been designed to perform CFA and DTHH.

The features qualifying the CM48 are:

- A completely self erecting system
- Modern Instrumentation
- Reliable and safe whilst working
- Quick Installation
- Tracks extendable from 2.5m – 4m
- Easy and accurate manoeuvrability
- Low transportation costs
- High production
