

## CM70

### Hydraulic Self Erecting CFA Piling Rig

Max Pile Length	m	22 + 4.5
Max Pile Diameter	mm	1000
Max Torque	kNm	156
Operating Weight	t	55
Min Transport Weight	t	48
Operating Length	mm	7250
Operating Width	mm	4100
Operating Height	mm	25680
Transport Length	mm	17354
Transport Width	mm	2700
Transport Height	mm	3340
Bearing Pressure	MPa	0.085

The CM70 is one of the latest developments in CFA and DTHH drilling technology.

Features of the CM70 include:

- A completely self erecting system
- Modern Instrumentation
- Reliable and safe whilst working
- Quick Installation
- Tracks extendable from 2.5m – 3.9m
- Easy and accurate manoeuvrability
- Low transportation costs
- High production
- 360° Turret rotation
