

## Soilmec R208

Hydraulic Rotary Rig

Maximum Pile Depth	m	40
Max Pile Diameter	mm	1,200
Operating Height	mm	18,200
Operating Weight	ton	33
Transport Weight	ton	26
Bearing Pressure	MPa	-

*The R208's outstanding features include:*

- Completely self-erecting
- Touch screen instrumentation
- High reliability & safety
- No road permits required
- Only 33 ton operating weight
- Low transport costs

*The Soilmec R208 has a short rig up time and is capable of drilling in narrow locations. It is completely self-erecting with high performance and minimum operating costs.*
