

Soilmec SF-50

Hydraulic C.F.A. Rotary Rig

Maximum Drilling Depth	m	25(6+19)
Max Pile Diameter	mm	900
Operating Height	mm	28,091
Operating Width	mm	4,000
Operating Weight	ton	45
Transport Width	mm	2,550
Transport Weight	ton	32.5
Bearing Pressure	MPa	-

The SF-50's outstanding features include:

- Completely self-erecting
- Up-to-date instrumentation
- High reliability & safety
- Easily maneuverable
- Quick installation
- Low transport costs

The SF-50 drilling rig is the latest Soilmec dedicated to the Continuous Flight Auger Drilling Technique. It is designed to perform:

- CFA bored piles
- Down The Hole Hammer (DTHH)
